Take charge of your business with new PULSE Dashboard™

Real-Time Dashboard
Manage with real-time data instead of yesterday's reports

Since 2005, PULSE DASHBOARD software has been helping companies leverage their Macola® investment in a new way—with real-time display of vital business metrics, and detailed analysis with the click of a mouse. You will track critical factors for your business, on-screen and real-time. PULSE DASHBOARD will revolutionize the way you manage your business.

PULSE Dashboard digs deep into your database – finding opportunities to reduce backlogs, optimize inventory, reduce costs and increase your profits.

One-Click Report Writer
Detailed reports on demand— Eliminates costly manual reports

New PULSE DASHBOARD One-Click Report Writer makes it easy for every department to generate detailed business reports in seconds. And since every user accesses the same database, inconsistencies between reports from different departments are eliminated. PULSE DASHBOARD One-Click Report Writer will increase productivity throughout your business.

Advanced Real-Time Dashboard and 1-click Report Writer for Macola®

Advanced Real-Time Dashboard and 1-click Report Writer for Macola®

▶ PULSE Dashboard adds revolutionary capabilities to Macola®

- Manage with today's real-time data instead of yesterday's reports
- Important metrics not found in standard Macola®
- One-click drill-down to view details
- One-click custom report writer and export to Excel/printer/PDF
- Installation & training in an afternoon

REAL-TIME DATA

PULSE works with your Microsoft SQL database, extracting data real-time for instant display and analysis.

▶ PULSE pinpoints new ways to reduce costs and increase profits

- Focus on shortages that prevent on-time shipping
- Anyone in your company can now generate custom views/reports
- You can now budget sales by customer, salesperson, products, etc.
- Focus on increasing inventory turns to reduce inventory
- Inventory aging pinpoints unused inventory

▶ PULSE modules track key metrics of every function

MODULE 1 Executive

- Track customer bookings and shipments by day and month
- Focus on orders to be shipped to maximize revenue
- Track gross margins by day and month
- Real-time aging of accounts receivable and accounts payable

Neatly organized visual interface makes navigation quick and efficient

MODULE 2 Sales & Marketing

- Track sales by customer, territory, rep, distributor, category, etc.
- Budget by customer, product, salesperson, etc.
- View month, quarter, year, last year sales & margin vs. budget

MODULE 3 Customer Service / Shipping

- View shortages and backorders preventing on-time shipping
- On-time shipping statistics by customer and item
- Credit memos analysis

MODULE 4 Inventory

- Inventory turns by month by item and ABC class
- Inventory aging
- View month by month on-hand, receipts, usage and turns—drill-down for history

MODULE 5 Production Control

- View raw material & component shortages preventing on-time manufacturing
- View week by week production schedule
- Production order dollar aging

MODULE 6 Purchasing

- On-time deliveries and quality performance by vendor
- Aging of open purchase orders
- Pinpoint past due orders and upcoming deliveries

MODULE 7 Financial Control

- Month-by-month actual vs. budget vs. last year graphs
- Drill-down to view details
- Department managers can now track controllable expenses real-time

MODULE 8 Material Requirements Planning

- Time phasing of demand and replenishments
- No tedious setup
- Regeneration is real-time and takes less than one minute
- Pinpoint component shortages by item, production order, customer order, etc.
