PULSE UTILITIES ™

QUICK, EASY SOLUTIONS FOR MACOLA

All-In-One Master File Import/Export Utility

Use Excel to make changes to your Macola® master files in minutes

If you need to make changes to your Macola® master files and have been dreading the hours and hours it will take to open the screen for each one, this utility is for you. For example, let's say that you want to change the product category of 500 inventory items, update 1,000 price codes or change 200 bills of material.

Excel-based ● Use familiar Excel to make master file changes

Fast ● Eliminates hours of tedious keying and proofreading

Easy setup ● Select just the data fields to display

Risk-free ● A backup is made before making changes

Designed for Macola® ● Works with Progression, ES and 10

Easy installation and operation ● Unlimited training & support is included

How does it work?

Using familiar Excel and powerful Visual Basic programming, this utility imports and exports data directly from and to your Macola® Progression, ES, or 10 database. You can select from the list of over thirty Macola® data files. You can make any changes to any data field. It is easy to use.

What Macola® data files can be changed with this utility?

ADDRESSES	Address Information	E	IMMATCST	Material Cost Type File	B
APALTADR	Vendor Alternate Address File	P	IMSUBITM	Item Substitute File	B
APVENFIL	Vendor File	P	IMTYPLOC	Material Cost Type/Loc File	B
APVENTYP	Vendor Type File	B	JOBFILE	Job File	P
