PULSE UTILITIES
QUICK, EASY SOLUTIONS FOR MACOLA

Monthly Inventory Snapshot Utility

Automatically makes a copy of your inventory on-hand quantities and costs each month for future reference

This utility is for Macola® and PULSE Dashboard customers that want to maintain a multi-month database of on-hand inventory quantities. Our utility runs automatically to take a snapshot and record the end-of-period on-hand quantity and the last, average, and standard cost for each item. This data is added to our Inventory Tracking file containing data for each prior month. You no longer need to run the "Freeze Inventory" program ever again.

Frozen Stock Status History

(ALL) | March | 2021 | Refresh Data

Summary
